

2,4,6-Tris(2-pyridyl)-S-triazine

Cat # NB-42-02291-5g size: 5g

Cat # NB-42-02291-10g size: 10g

Cat # NB-42-02291-25g size: 25g

Product Information

Chemical Name: 2,4,6-Tris(2-pyridyl)-s-triazine

Synonyms: 2,4,6-Tri(2-pyridyl)-s-triazine, TPTZ

1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: C₁₈H₁₂N₆

Batch Molecular Weight: 312.33 g/mol

CAS No.: [3682-35-7]

Physical Appearance: Pale yellow powder

Melting Point: 247-249 °C

Storage: Desiccate at RT

Solvent and solubility

Soluble in Methanol

Biological activity

complexing reagent used in spectrophotometric analysis

- CAUTION - Not fully tested. For Research use only. Not for human use. –

Analytical data

HPLC: 99.6% @ 210nm

Water content: 0.20%

- CAUTION - Not fully tested. For Research use only. Not for human use. –
